

Google patents [Advanced](#)

## Patents

Patents 1 - 10 on **determining block attacks would have exploited network vulnerability**. (0.04 seconds)

## ▸ List view

[Cover view](#)[\[APPLICATION\]](#) [Network security apparatus and method](#)

US Pat. 10824273 - Filed Apr 14, 2004

external **attacks**. In one embodiment system 200 resides on a single computer ...  
if a blocked attack **would have exploited network vulnerability** is determined ...

## ▸ Sort by relevance

[Sort by date \(new first\)](#)[Sort by date \(old first\)](#)[System and method for risk detection and analysis in a computer network](#)

US Pat. 6952779 - Filed Oct 1, 2002

The system calculates the probability of possible **attacks**, step 135. ... In some  
embodiments, the **network** topology, services, and **vulnerability** information ...

## ▸ Any status

[Issued patents](#)[Applications](#)[Method for network self security assessment](#)

US Pat. 6185689 - Filed Jun 24, 1998 - Richard S. Carson &amp; Assoc., Inc.

These **attacks** fill the available memory buffer space and ... easy and automated  
identification of unfixed **network** vulnerabilities that might be **exploited**. ...[Threat detection in a network security system](#)

US Pat. 7260844 - Filed Sep 3, 2003 - ArcSight, Inc.

Therefore, the event received in **block** 202 **would** be classified as a threat in  
... security event comprises mapping each **exploited vulnerability** to related ...[System and method for analyzing filesystems to detect intrusions](#)

US Pat. 6647400 - Filed Aug 30, 2000 - Symantec Corporation

If the inventive system finds this **vulnerability** present, but finds that there  
are ... useful if the operators **have** patched the **vulnerability** he **exploited**).  
...[System and method for detecting buffer overflow attacks](#)

US Pat. 6826697 - Filed Aug 30, 2000 - Symantec Corporation

If the inventive system finds this **vulnerability** present, but finds that there  
are ... useful if the operators **have** patched the **vulnerability** he **exploited**).  
...[\[APPLICATION\]](#) [System and method for securing a computer system connected to a network from ...](#)

US Pat. 10880049 - Filed Jun 29, 2004 - Microsoft Corporation

[0079] At **block** 604, the security service 306 obtains information regarding a  
**vulnerability** of the computer systems connected to the **network** 110. ...[System and method for detecting computer intrusions](#)

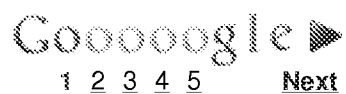

US Pat. 6996843 - Filed Aug 30, 2000 - Symantec Corporation

If the inventive system finds this **vulnerability** present, but finds that there  
are ... useful if the operators **have** patched the **vulnerability** he **exploited**).  
...[System and method for using signatures to detect computer intrusions](#)

US Pat. 7032114 - Filed Aug 30, 2000 - Symantec Corporation

If the inventive system finds this **vulnerability** present, but finds that there  
are ... useful if the operators **have** patched the **vulnerability** he **exploited**).  
...[System and method for using login correlations to detect intrusions](#)

US Pat. 7095026 - Filed Aug 30, 2000 - Symantec Corporation
